COLORED SPECTACLES - Many persons who have weak eyes wear colored spectacle, when they ere positively injurious. On no eccount should cell red glasses be wern on a dull day, in chould call red glasses to wern on a dull day, in the dusk of the overing, or, as a general rule, in mild artificial light. The reasons for such cantion in the use of glasses are, that the power of the eyes becomes impaired to endure strong light hy accust ming them to the impressions of feeling illuminations. Some persons who have delivate organs may occasionally employ spectacles of lightly finited glass for reading and writing, but they should be avoided if possible. Colored glasses ere useful to protact the aye from the brilliant reflection of enow and the bright rays of the oxyhydrogen and electric light, and for this purpose they should be a deep green. Persons recovering from inflamation of the eye should also use such glasses, but they ought to be alid aside as soon as possible. The eye should be accustomed to endure strong sunlight when not reflected from dezzling curfaces, such as bodies of water, white sand, and crow.

Louisville Democrat, commenting on these doctrines as announced in the speeches of Sec ratary Cameron, is thus decided:

It is reported and believed all over the country that he had countened sed subspires ed the arm and of negroes, and the Back Republican and ment which he does whan he is suspected of it. It changes the whole aspect of the contest—from a relief of the oppre sed people of the South to a wir of conjues, subjection, and assessination.

Mr. Secretary Smith did right in so promptly reproving and condemning i on the part of the Alministration, and we teretell prompt action by the President.

Waspeak it plainly; the scheme for genera emancipation or arming the back will be every slave State to the Union. It would take a standing army of 200,600 nou to relain Kentucky in the Union, and then the soldiers would be compelled to add in exterminating the black race. If they are emancipated, there is but one other thing to be done will them, they would be whole history of the world, from the days of the Egyptian to our can times, caunot exist in the same country, unless the black race is in slavery. It is no quo tien for the ry, argument, or discussion. It is a direct law of God, final and conclusive. The Provident, himself a Kentuckian, knows and approximes the condition of affairs, and will act for the best, and it ought to be the doty of the State Legitlature to and him by expressions of condemnation of the Camaron policy.

Wa have here an evidence of the wonderful pus, levies, drafes, or other extracrdinery excidents, we have raised a greater force than that which, gathered by Napyleon with the sid of all base appliances, was considered an evidence of is worderful genius and energy, and of the military spirit of the French nation. Here every not have an interest in the Government, and ushes to its defence when dangers beset it.

By reference to the need of the Revolution, will be seen that Messachusetts, with a population of 350,000 than at one time 56,000 throops a the tield, or ever one sixth of berenties people

The Government should user have less than emplified the rates per tone if the stress per tone, and for freight the rates per tone, and for freight the rates per tone if every greater than of the greatest fixed the content of the greatest facilities for reaching the national connount, perhaps, could be precured from privates manufactories, the passession of a national establish and the greatest facilities for the purpose. While a sufficient number of cannon, perhaps, could be precured from privates munifactories, the passession of a national establish is more value of work of this character.

In my last report I called attention to the fact overnment should never have less than e n of muskets in its arsenals, with a corres-

country. Some general plan should be provided by Congress in and of the States, by which our militizen be organized, armel, and disciplined, and made effective at any moment for immediate service. If thoroughly trained in time of peace, when occession demands, it may be convorted into a west earny, condient in its discipline and unconjuerable is its patriotism. In the absence of eoy general system of organization, upwards of 70 1,000 men have already been brought into the field, and, in view of the alacrity and enthusiasm that have been displayed, I do not hesitate to express the belief that no combination of events can arise in which this country will not be able not only to protect itself, b.t., contrary to its policy, which is pece with all the world, to enter upon aggressive operations against any power that may intermediate with our demestic affairs. A committee should be appointed by Congress, with enthorly to sit during the teess, to devise and raport a plan for the general organization of the immense surplus of the agricultion of the immense surplus of the agricultion of the immense surplus of the agricultion of the condition of our fortifications upon the seabcard and the likes, end upon cure exposed frontiers. In this connection, justice requires that I should cell attention to the claims of a veterau oillier, to whom, more than to any other, the Military Academy is indebted for its present prosperous and efficient condition. I alluda to Colonel Sylvanos Thayer, of the Engineer cops, who now, by reason of advanced years and faithful public services, is incapacitated for duty in the field Under the receival two of Congress he may justly claim to be retired from active service; hu, believing that his distinguished services should receive some mark of acknowledgment from the Government. creaved comfort and happiness to the life of the soldier, and imparting to our hospital service a more humane and generous character. Salubrity of cituation and pleasantness of surraundings have dictated the choice of the hospital sites, and establishments for cursick and wounded, of which we have every reason to be proud, have been opined in St. Louis, Wa hington, Georgetown, Baltimore, and Anaspotis, and will be attached to every division of the arony in the field. To the class of the war vigilant care shall be given to the health of the well soldier, and to the confort and recovery of the sick.

the health of the well folder, and to the comfort and recovery of the sick.

I recommand that the system of promotions which proved in the Regular service be applied to the Volunteer forces in the respective States; restricting, however, the promotions to men actually in the field. At present each Governor selects and appoints the officers for the troops furnished by his State and compalaint is not unshed by his State and compalaint is not unshed by his State and compalaint. nished by his State, and complaint is not un-frequently made, that, when vacancies occur in the field, men of inferior qualified lions are placed in command over those in the ranks who are their superiors in military experience and capacity. For the purpose of facilitating the transportation of supplies to Alexandria and to points beyond, it has been found necessary to rebuild portions of the Orange and Alexandria and the Loudon and Hampshire railroads, and to lay a track from the railroad specific a the Ectories.

On the first of the present month Lieut, Con. Windied Scott voluntarily relinquished his high command as Genoral-in-Chief of the American army. He had faithfully end gallantly served his country for upwards of half a contury, and the glory of his ochievaments has given additional lustre to the hrightest pages of our national numels. The affections of a grateful people follow him into his rationant. The President immadiately conferred the command of the army on the officer next in command. Fortunately for the country, Major General McClellen had proved himself equal to every situation in which his great talen's had been celled into exercise. His brillint achievements in Western Virginia, the nn-

vided for in every respect than our regulars and volunteers, I can tally think that no force so large and so well equipped, was ever put in the field in so short a space of time at so small an expense. While it is my intention to preserve the strictest cocomy and accountability, I think the last dollar should be expended and the last man should be armed to bring this unholy rebeilion to a specify and permanent close.

THE SLAVEN AUGUSTA.-The return of the Intended cruise of the bark Augusta, about which there has been some doubt, has at length been explained by the confession of one of her crew, who was arrested at Firs Island, and, together with his companions, was sent to Fort Lafayette, after having been discharged by the United States Commissioner for want of evidence. The New York Times stated on Saturday that i' wes intended to make a voyage to the coast of Africa for a cargo of slaves, and accordingly the Marshel arrested Mr. J. W. Pinckney, who shipped the crew of the Augusta, and n man named Jaco Appleby, doing buriness in Broad street, who is said to be in part owner of the vessel. To the Editors of the Louisville Journal: SMITHLAND, Ky., Nov. 8, 1861. GENTLEMEN: I am not much given to new paper correspordence, but, as the Legislature is now

in session and many plans are proposed for the whilef of the leyal man, permit use, too, to make a suggestion or two.

Dirtress deep and dire is on us. That accession has caused it is indisputable, that every men and woman of any sonse in Kommeky knew that to express the cause of the South was to bring war. esponse the cause of the South was to bring war, is equally true. Thus for any one to say new that they had a right to their opinion and ought not to suffer for expressing it and indvocating it when they knew at the time the adoption of it was to bring on this drondful civil etrife, is prepenterous. Now somebody is to enffer deeply pecuniarily in the general winding up and but peeterous. Now comebody is to entire deeply pecuniarily in the general winding up, and bankruptcy is to follow. In common cutright justice, who should it be? Of course every one says the wrong-doer. As a cure for this financial rule various expedients are proposed. Some propose an extension of the stay laws; some propose in the energl bankrupt law. I can opposed to both, and in their stead make a proposition of my own by which the wrong-deer is only to suffer, loyally to be encouraged, no robbery committed, and cutright justice perpetrated. It is this. Let our Legislature pass on act debarring all who have by word or doed, since the 1st of last October, been aiding, encouraging, or abatting this robellion. man or wemen—in other words, ontlaw every or of them so far ms collection of delits is conserved and if any one of them sails his dalt to a Unic an so as to thereby evoid such an act, let the purchaser be in no better fix than the seller. Substantially, sech an act would be just and save leval men and women from bankrupler; and, if meelvency must come, let it fall on traiters, who have brought us all to the hrisk of rule, and bus there need to no stay law, neither a bank-
